

SPONSOR & EXHIBITOR PROSPECTUS

4TH POLISH ZEBRAFISH SOCIETY MEETING

February 13 - 14 • 2025
Poznań • Poland

Invitation

On behalf of the organisers, we are pleased to invite you to participate in the 4th Polish Zebrafish Meeting, which will be held in Poznan, Poland on 13-14 February 2025. This event is proudly organised by the Polish Zebrafish Society in cooperation with the University of Medical Sciences in Poznan.

We believe that your presence will maximise your exposure within the zebrafish research community, give you the opportunity to raise your company's profile and boost your sales in the rapidly growing field of zebrafish research in Poland.

More details on exhibiting and sponsorship opportunities can be found in this brochure. For further information please contact the Sponsor and Exhibitor Management at sponsors.ptz@gmail.com.

We look forward to seeing you in Poznan.

on behalf of the Organizers,
Przemko Tylżanowski
Chair of the Polish Zebrafish Society

About organizers (I)

The main task of the Polish Zebrafish Society is to **promote cooperation** among people performing research on **zebrafish** (*Danio rerio*) in Poland and abroad. Besides the scientific collaboration, the Society promotes science education, popularization and promotion of zebrafish model organism for the general public.

The Society accomplishes its mission by organizing workshops and high quality meetings devoted to zebrafish research.

Medical Sciences

Previous meetings

So far, the Polish Zebrafish Society has organized the following events:

- **12th European Zebrafish Meeting** (July 9-13, 2023, Krakow, Poland) – a large international conference attended by over 500 participants and co-financed by over 30 sponsors
- **Zebrafish Workshops (six times)** – 2-day or 3-day hands-on trainings in the use of the zebrafish model for biomedical research
- **Polish Zebrafish Society Meetings (three times)** – conferences that bring together people using (and wanting to introduce) zebrafish in their research
- **Zebrafish Conferences for Undergraduate Students (three times)** – supervised presentation sessions to get students involved in zebrafish research

Polish Zebrafish Map

The number of scientists using zebrafish in research is constantly growing and new zebrafish breeding laboratories are being established every year. The [zebrafish research groups](#) are located in at least 7 different cities in Poland.

Conference venue

All scientific activities of the 4th Polish Zebrafish Society Meeting as well as coffee breaks and a lunch will take place in the [Medical Biology Center](#) of the **Poznan University of Medical Sciences**. The venue is located at Rokietnicka 8 Street, close to the City centre.

Medical Biology Center is a modern research and teaching facility. It features a number of [rooms](#) of varying sizes and functionalities.

Medical Biology Center of the Poznan University of Medical Sciences
Rokitnicka 8
60-806 Poznan, Poland

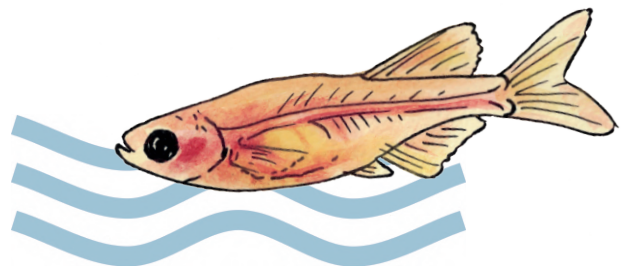

Scientific program

Sessions

The scientific program will cover the complete spectrum of zebrafish research aspects and will include the following key components:

- Epigenetics, Gene Regulation and Genomic Resources
- Emerging Technologies (inc. Gene manipulation and Imaging)
- Neurobiology
- Circuits and Behaviour
- Disease Models
- Cancer
- Immunity and Infection
- Patterning and Cell Signalling
- Morphogenesis and Organogenesis
- Toxicology
- Chemical Biology and Drug Discovery
- Husbandry (and Aquaculture)
- Reproductive and Evolutionary Biology
- Stem Cells and Regeneration
- Tissue Formation and Structure
- Cardiovascular Development and Function
- Germline and Early Development
- Metabolism
- Single Cell Biology

Exhibiting possibilities

We are excited to offer your company the opportunity to exhibit at the "4th Meeting of the Polish Zebrafish Society," a premier scientific conference dedicated to the dynamic field of zebrafish research in Poland.

Why Sponsor? Sponsoring our conference will provide you with unparalleled access to a targeted audience of researchers, scientists, and students who are actively engaged in zebrafish research in Poland. The conference will be open also to researchers that would like to start using zebrafish model. Thus this will be a unique opportunity to present your solutions, equipment, and reagents directly to those who can benefit most from them.

Exhibiting benefits

- **Exhibition Booth:** Each sponsor will receive a booth with a table, chairs and access to electricity, strategically placed in high-traffic areas.
- **Visibility:** Your logo will be prominently displayed on the conference website, in the conference materials, and on banners throughout the venue.
- **Networking Opportunities:** Engage with participants during dedicated exhibition times, including before and after lecture sessions and during the poster session.

Expected Attendance: Approximately 100 participants

Contribution Flexibility: We do not set a minimum sponsorship amount, relying on the generosity of our sponsors to help us maintain low registration fees for participants and ensure a high-quality conference experience. The sponsorships may have different forms, from a direct contribution to our Society to direct sponsoring of selected activities.

Application Conditions

Application deadline: January 15, 2025

Cancellation Policy: Cancellation and changes to your inquiries must be made in writing to the Sponsor and Exhibitor Management (contact below).
