

# 6th Polish Zebrafish Society Workshop

**14-16.02.2024**

**14 February - OPEN LECTURES 13:00-17:30 (in English)**

**Institute of Zoology and Biomedical Research  
Room 0.18 (ground floor), Jagiellonian University  
ul. Gronostajowa 9, 30-387, Kraków**

- 1. 13:00 -13:10 - Welcome and Introduction** - Przemko Tylżanowski - Chairman of Polish Zebrafish Society, *Medical University of Lublin; KU Leuven, Belgium*
- 2. 13:10 - 13:40 - "The zebrafish as a model for scientific research"** - Marta Migocka-Patrzałek, *University of Wrocław*
- 3. 13:40 - 14:10 - "Zebrafish xenografts in cancer research - High-content screening to identify drug combinations effective against Ewing sarcoma"** - Martin Distel, *Medical University of Vienna*
- 4. 14:10 - 14:40 - "Zebrafish model to study brain development and diseases"** - Justyna Zmorzyńska *The International Institute of Molecular Mechanisms and Machines, PAS, Warsaw*
- 5. 14:40 - 15:10 - "Zebrafish as a model organism for toxicity studies: exploiting advantages in biomedical research"** - Barbara Budzyńska, *Medical University of Lublin*
- 6. 15:30 - 16:00 - "Zebrafish in the lens of behavioral research"** - Małgorzata Potoczna - *Transpharmation Poland, University of Warmia and Mazury in Olsztyn*
- 7. 16:00 - 16:30 - "Zebrafish larvae infection model to study immunity and host-pathogen interactions"** - Magdalena Widziotek-Pooranachandran, *Jagiellonian University*
- 8. 16:30 - 17:00 - "Modeling of viral infections in fish: from fundamental to applied science"** - Krzysztof Rakus, *Jagiellonian University*
- 9. 17:00 - 17:30 - "Evolution of genome editing in zebrafish: from origins to advances and integration into translational medicine"** - Anna Sarosiak, *Institute of Physiology and Pathology of Hearing, Warsaw*

**17.30 - 20.30 - Poster session / get together**
